

**Company Announcement
July 2007**

ISO 9001:2000

Tech-Fast achieves ISO 9001:2000 Quality Accreditation

After a process to design, install & run our quality assurance system as devised between Hatton Parkinson Associates & Tech-Fast.Com Limited. The company was assessed against the standard as set out by BSI for ISO 9001:2000.

The assessing body was TÜV UK Ltd (division of TÜV NORD International GmbH & Co KG) who having worked through the system on site at Tech-Fast have approved the same system, as being compliant with the standard.

The scope of the approval is as follows:

"The design and supply of plastic fasteners, closures & components"

This marks a key stage of development for the company & clearly demonstrates the focus on product quality & customer service which are paramount to the future success of the business.

Having approval with the 'Crown & Tick' validates the hard work that went into achieving the goal of ISO 9001:2000 certification.

The company would like to thank both Hatton Parkinson Associates & TÜV UK Ltd for their support throughout the process to establish the system & look forward to many years of close co-operation as the system develops based upon the needs of business & most importantly the needs of our customers.

Tech-Fast is committed to quality of products & service for today & for the future

Tech-Fast.Com Limited

Specialises in the design & supply of technical plastic fasteners, closures & components. The company is active in all major global markets.
