New Versions of Pine Tree Clips

Value Added Fasteners

Tech-Fast is pleased to announce two new additions to the **Pine Tree Clip** family of products, they are:

The '**Looped Tree Clip**' and the '**Latched Tree Clip**'

The Looped Tree Clip is designed specifically to provide not only a fixing element, but also an anchor position which can have either a Purse Lock or a Cable Tie to secure a second element.

The Latched Tree Clip has the same benefits, but the added feature of being able to be serviced. Conceived specifically to manage wire & cable.

The 'Full Fin' fixing can be used in: steel, aluminium, wood, MDF, brick, stone, concrete, plasterboard and plastic. Providing a very secure fixing which is almost impossible to remove without breaking the component.

Made from Nylon 66 both parts are available in Black & Natural colour as standard, but further to this are also available in Green, Brown & Clear (made in Polypropylene) subject to minimum order quantities.

Tech-Fast (a division of GBK UK Limited)

Specialises in the design & supply of technical plastic fasteners, closures & components. The company is active in all major global markets.
