Plastic Fastener Company announces forthcoming range of Circuit Board Hardware

Tech-Fast is pleased to announce the imminent launch of a comprehensive new product range

Circuit Board Hardware

Our new range of stand offs and spacers will be rolled out in the New Year on to the website. This will be completed by the end of February 2010.

Modular tooling platforms allows us to present ranges which offer spacer distances of over 60mm in 'above board' height for many of the products. Incremental increases of 1mm offer customers options to get exactly the correct part for their application.

We are able to offer quotations on these products and can also support initial sample requests. So please contact us to discuss your needs for Circuit Board Hardware

When it comes to '**engineered solutions to everyday problems**' talk to Tech-Fast first, we are where industry comes to for the answers to their fastening & fixing needs in plastic.

Tech-Fast (a division of GBK UK Limited)

Specialises in the design & supply of technical plastic fasteners, closures & components. The company is active in all major global markets.
