**Plastic Fastener Company releases new product range - "U Nuts"**

Tech-Fast is pleased to announce a completely new range of specialist plastic fixings

**Plastic "U Nuts" for self tapping screws**

Multi Thread U Nuts made from steel have been available for a significant amount of time. This new range of Plastic U Nuts for self tapping screws offers benefits to users that are normally associated with the replacement of steel fastening solutions with plastic alternatives.

Added to this, these new range also offers a version to fit directly onto corners at 45° whilst also accepting a second panel beneath.

Other versions are designed for single panel construction with or without notch features to align the U nuts correctly onto the work pieces.

This range of product is part of a larger new product release, which includes Sealed Lokut Nuts, which are also known as Screw Grommets. Further news on this exciting new range will be released soon. Please check the web site for updates

When it comes to '**engineered solutions to everyday problems**' talk to Tech-Fast first, we are where industry comes to for the answers to their fastening & fixing needs in plastic.

**Tech-Fast (a division of GBK UK Limited)**

Specialises in the design & supply of technical plastic fasteners, closures & components. The company is active in all major global markets.
